

NEW

Male Urinal Lid

PREVENTS SPILLAGES AFTER USE.

Why use a Male Urinal Lid?

The new Male Urinal Lid from Vernacare is perfect for containing odours and preventing accidental spillages after using one of our single-use Male Urinals.

Using a Male Urinal Lid saves patients the embarrassment and indignity which can follow an accidental spill and reduces the risk of cross-infection to patients and staff.

- + Fits all Vernacare single-use Male Urinals
- + The lid is placed into the neck of the bottle ensuring a tight seal
- + Stacking design for space efficient storage
